

Hummersea Primary School - Sport Premium Funding

Sport Premium Funding Received: £18,290				
What has the money been spent on?	How much did this cost?	What has the impact of this been?	How is this sustainable?	What will we do next?
Qualified PE Teacher (Mr Dunford) to work with children and teachers two days per week.	£18,500	Children have received high quality PE teaching which has developed children's physical literacy. Teachers are now more confident in teaching their own PE, so children constantly receive a high quality PE curriculum. Children also now receive more timetabled curriculum PE time, as teachers are now teaching more PE. Staff are more aware of how to incorporate PE in to other areas of the curriculum. Children and staff are attending more competitions.	Teachers have become more engaged in the teaching of PE, and now have greater understanding and experience. Teachers are now far happier to teach their own PE lessons, than previously.	Children will continue to be taught by Mr Dunford, and teachers will continue to work alongside him to continue their development in PE teaching. We hope that teacher's will become more confident in taking children to competitions. To attend a wider range of competitions and progress to the next level of competition.

Hummersea Primary School - Sport Premium Funding

<p>New PE equipment (tennis balls, footballs, hoops etc)</p>	<p>£300</p>	<p>Children now have a great experience in PE as the additional equipment can allow for children to work individually and in small groups to further develop their skills and collaborative work. This has also allowed for the Play Leaders to utilise more equipment on a play and lunch time to engage more children in activity.</p>	<p>The school will continue to reinvest when equipment needs replenishing. Play Leaders have a responsibility to look after equipment so that it remains in good condition.</p>	<p>Audit the current equipment to see what may need replacing in future, and if there is anything additional that may enhance the teaching of PE.</p>
<p>Subsidising Residential</p>	<p>£18,030</p>	<p>Children have been more able to access to residential trips due to the school subsidising the some of the cost. This has allowed more children to experience outdoor activities which have helped with team building and self esteem. On their return to school, many of the children have increased confidence.</p>	<p>This will continue in future as the children gain valuable life experience from the residential and learn how to be safe and to look after each other.</p>	<p>The residentials will be booked in again for the next academic year.</p>

Participation in sports festivals	£600	This has allowed the children to demonstrate skills taught through the quality first PE teaching. It has allowed children to participate in inter school competitions. Staff have been given more opportunities to teach and coach teams of sporting children.	This will continue as it provides children with a competitive environment to develop their self-esteem.	Continue to attend the festivals and other competitions throughout the year.
